

Crispin Duarte

I am a fourth year Fresno State student pursuing a bachelors in General Mathematics with inspirations to double major in Civil Engineering. I consider myself a hard-working individual who takes pride in any position I work and find honor in performing tasks well. In the work environment I am; determined, organized, responsible, calm and collected. I have great communication skills, I am punctual and always willing to learn.

Experience

2020-2023

Tulare County Trap Club | 7394 Avenue 328, Visalia, CA 93281

Trap Help

At Tulare County Trap Club I was assigned trap helper and was given various tasks that mostly involved cleaning and maintaining my working area. My main duties during this job include; loading targets, cleaning, dumping trash, changing paper towel rolls, customer support and machine maintenance. The working area was an acre and a half of land that had a total of five sporting clay machines and two skeet fields. There was a club house fitted with a kitchen and bathrooms which needed regular maintenance and cleaning. This job allowed me to practice proper work ethic and gave me the responsibility to keep a clean work environment.

2018-June 2022

Kingsburg Gun Club | 2246 Gilbert Dr, Kingsburg, CA, 93631

Trap Leader

At Kingsburg Gun Club I was fortunate enough to be one out of six trap leaders tasked with leading a group of seven other individuals. My main duties during this job include; supervising, communicating with the event leader, maintaining a clean work environment, drafting time cards, customer support and maintenance. I was given the responsibility of maintaining and operating four sporting clay machines where I would assign and supervise seven other individuals. This job allowed for me to experience a supervisor position while teaching me the importance of organization and communication.

April 2020-August 2020

Youngstown Distributions | 1625 G St, Reedley, CA 93654

HPP Crew Member

At Youngstown Distributions I was assigned to HPP which was a high powered pressurizer that mostly processed bottled juice. My main duties as an HPP crew member include; cleaning before work with various cleaning solutions, scrubbing floors, loading juice into pressurizer, boxing the juice bottles and palletizing the boxes. The pressurizer required maintenance and internal cleaning once a week which included tasks such as deep clean scrubbing, washing barrels and mopping the floor of the machines working environment. This job taught me the importance of having a clean environment in the processed food industry and how to properly handle cleaning chemicals.
